**Episcopal Habitat
Coalition**

**Mighty United
Methodist Coalition**

REALTY  INCOME

Built in Partnership with:

Meet the future Habitat homeowners:

For Kymerly, sacrificing for her family has been a priority. She has been willing to sleep on an air mattress in the living room of her parents' house, just so her brother has his own room and her sister, and her eight-year-old niece would also have their own room to share. "It's so overcrowded," she says. But now, thanks to her parents who are also Habitat homeowners, Kymerly has now gone from renting a room in her parents' house to having her dream of owning her own home become a reality. "What motivated me to apply for homeownership is hopefully being in a position to be independent, not just for me but for my sister and her daughter as well." And to add to her dream, Kymerly will be residing in Glendale. "We are born and raised in Glendale. Glendale is home." "There are no words to describe the impact Habitat has made on my family's life."

"To call a place of my own home, will be a dream come true."
